MiCOM Labs File Number: CTSL277

Date: May 6, 2016

Attention: Cam Nichols  
Rigado LLC  
2601 25th ST SE, STE 200  
Salem, OR 97302, United States

Dear Mr. Nichols,

MiCOM Labs Certification has reviewed the related application document for this device and is pleased to advise you that this device meets Industry Canada requirements for Certification. Please ensure that you retain copies of the original application documents for a minimum of 10 years.

The assigned Certification Number and Model Number must be shown on each piece of equipment. For modules, the certification identification information may be shown on the equipment housing, an equipment plate or on a separate label that is indelible and tamper proof. The Certification Number shall be prefixed with the letters "IC:". Please be aware that Industry Canada considers devices labeled incorrectly as NOT being certified and subject to appropriate action.

We have notified Industrie Canada of this certification so that they may record this equipment in the Radio Equipment List (REL) database. Please note that the certified equipment shall not be distributed, leased, sold or offered for sale in Canada before the details of the certification appear in the REL database. This certificate is valid subject to listing on Industrie Canada REL. Listings may be found at the web link below.

Sincerely,

Gordon Hurst,  
President & CEO MiCOM Labs, Inc

Certification of equipment means only that the equipment has met the requirements of the above noted specification. Licence applications, where applicable to use certified equipment, are acted on accordingly by the issuing office and will depend on the existing radio environment, service and location of operation. This certificate is issued on condition that the holder complies and will continue to comply with the requirements and procedures issued by Industry Canada. The equipment for which this certificate is issued shall not be manufactured, imported, distributed, leased, offered for sale or sold unless the equipment complies with the applicable technical specifications and procedures issued by Industry Canada.

La certification du matériel signifie seulement que le matériel a satisfait aux exigences de la norme indiquée ci-dessus. Les demandes de licences nécessaires pour l'utilisation du matériel certifié sont traitées en conséquence par le bureau de délivrance d'Industrie Canada et dépendent des conditions radio ambiantes, du service et de l'emplacement d'exploitation. Le présent certificat est délivré à la condition que le titulaire satisfasse et continue de satisfaire aux exigences et aux procédures d'Industrie Canada. Le matériel à l'égard duquel le présent certificat est délivré ne doit pas être fabriqué, importé, distribué, loué, mis en vente ou vendu à moins d'être conforme aux procédures et aux spécifications techniques applicables publiées par Industrie Canada.
